

## Kealia Pond- Wide View

Highlight the path that water travels as it drains from west Maui mountain at Waikapu stream and travels to the ocean.

Use arrows to indicate the direction that water flows as it drains from the central plains (kula lands).

Use “XXX” to mark coastal areas that are impacted by this fresh water run-off.

## Kealia Pond- Detail View

Indicate the location of your water monitoring effort with a “WQ”

Note any differences between the conditions shown on the map and your own observations of the conditions at your location.
